R Markdown

This is an R Markdown document. Markdown is a simple formatting syntax for authoring:

- HTML
- PDF
- MS Word documents.

For more details on using R Markdown click [here](#) link.

When you click the **Knit** button a document will be generated that includes both content as well as the output of any embedded R code chunks within the document. You can embed an R code chunk like this:

```
summary(cars)
```

```
##      speed      dist
##  Min.   : 4.0    Min.   :  2.00
## 1st Qu.:12.0    1st Qu.: 26.00
##  Median :15.0    Median : 36.00
##   Mean  :15.4    Mean   : 42.98
## 3rd Qu.:19.0    3rd Qu.: 56.00
##   Max.  :25.0    Max.    :120.00
```

Including Plots

You can also embed plots, for example:

Figure 1: Plot this way

Note that the `echo = FALSE` parameter was added to the code chunk to prevent printing of the R code that generated the plot.
